Objective:

Highly motivated Data Scientist with 3+ years of experience in building data-driven solutions and predictive models.

Passionate about machine learning, data analysis, and business insights.

Skills:

- Python, R, SQL

- Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

- TensorFlow, Keras, PyTorch

- Data Cleaning, Feature Engineering

- Machine Learning (Supervised/Unsupervised)

- Deep Learning, Neural Networks

- Natural Language Processing (NLP)

- Data Visualization

- Tableau, Power BI

- Cloud: AWS (S3, EC2), Google Cloud

- Git, Docker, Jupyter Notebook

Experience:

Data Scientist

XYZ Technologies, Bengaluru, India

Jan 2022 - Present

- Built a customer churn prediction model using logistic regression with 85% accuracy

- Developed a recommendation system for e-commerce platform using collaborative filtering

- Created dashboards using Power BI for real-time business metrics

Data Analyst Intern

Data Labs Pvt Ltd

Jun 2020 - Dec 2021

- Cleaned and analyzed large datasets for marketing campaigns

- Generated business insights using SQL queries and visualization

Projects:

- Image classification using CNNs trained on CIFAR-10 dataset

- Sentiment analysis of product reviews using LSTM models

- Predictive model for housing prices using regression models

Education:

B.Tech in Computer Science, ABC University, 2020

Certifications:

- IBM Data Science Professional Certificate

- Google Cloud Data Engineering Certification
